Arrest-Proof Yourself

Synopsis

What do you say if a cop pulls you over and asks to search your car? What if he gets up in your face and uses a racial slur? What if there's a roach in the ashtray? And what if your hot-headed teenage son is at the wheel? If you read this book, you'll know exactly what to do and say. More people than ever are getting arrested—usually for petty offenses against laws that rarely used to be enforced. And because arrest information is so easily available via the Internet, just one little arrest can disqualify you from jobs, financing, and education. This eye-opening book tells you everything you need to know about how cops operate, the little things that can get you in trouble, and how to stay free from the hungry jaws of the criminal justice system. It is now updated with new and important information on the right of the police to search your car; on guns, knives, and self-defense; and on changes in surveillance methods.

I bought this book and read it on my Android tablet with a Kindle app, it's a very good and informative book. "Arrest-Proof Yourself" is a really about common sense. Normal average middleclass people who follow rules will pick up some real pointers about how to keep themselves out of the back seat of a patrol car. I always suspected that the police had a point system and a unofficial quote system in place, now it's been confirmed. I am sure with this advice and my dominating middle class American values I won't be seeing any self inflicted arrest in my future. BUT the real value of this book is that it enlightens you to the CONSEQUENCES of being arrested. They are huge and life changing. Pay attention. The cost of the book is nothing in

comparison to understanding the consequences of being arrested. The book explains clearly (and with examples) that just because you were not convicted of the crime you were originally arrested for doesn't mean that the arrest disappears from your record. The arrest will NEVER disappear, it will always be there to haunt you and come back and bite you in the you know what. Your employer, your bank, your mortgage loan officer, your new love interest, everybody will see the arrest. There will be no mention that you were not convicted. People will think you were arrested, you are guilty. They will ask themselves "Should I associate with this person, do I want him or her in my company?" Hold on though, it gets Worse. He talks about what's going on in electronic surveillance. Pay attention because "Big Brother" is. In the end the book is the real deal. It's not a conspiracy "theory" book. Your getting it straight from the horse's mouth.
