ISBN-13: 978-1442150072

Product Dimensions: 5.2 x 0.4 x 8 inches

Shipping Weight: 8.8 ounces (View shipping rates and policies)

Average Customer Review: 3.7 out of 5 stars [See all reviews](#) (35 customer reviews)

Best Sellers Rank: #223,117 in Books (See Top 100 in Books) #44 in [Books > Humor & Entertainment > Puzzles & Games > Gambling > Lotteries](#)

## Customer Reviews

I bought this book in October of 2011. I won 3 times on the Daily 3 using her methods in a 2 month period which totaled almost 1000 bucks.(Total investment was 6 dollars.) Was it coincidence? I don't know. Never won before. But I will tell you several times her predicted numbers and numbers I should of looked out for around my surroundings came up, but unfortunately I didn't play them. I'm just writing this today because I had a specific dream and looked up the numbers for that dream and they came in for the Daily 3 in Michigan where I live. Unfortunately, I was using a different strategy and missed out again. I have a number of other lottery books and have had no luck with them at all. Most of them have some sort of wheeling system and mathematical probabilities which can make an average player go broke in a hurry. Plus they're no fun. With Raven's book it's kind of fun guessing and using dreamwork, intuition, esp. whatever you want to call it; anda lot less expensive then doing a \$20.00 wheel. The predicted numbers don't come in every time but what is exactly predictable anyways. Isay you can buy the book and have some fun. Maybe you'll get lucky and be scratching

your head afterword like I did.

this book is the best. i won \$500 the second time i used the book to pick numbers, which is great considering i've never won anything.

I used to just randomly pick numbers to play, but after reading this book, I started to understand that there was a method to it, and this book explains it all. My luck has really turned around thanks to Raven!

This small book is well worth the money. It is very intuitive; yet uncannily ACCURATE. I have already won over \$1200.00 in less than two weeks. Her method really works and I am done trying to figure it out. All of her little tips and advice really work. I can't say enough about this book. If this book speaks to your spirit, buy it.

Someone probably made a lot of money on this publication, but it wasn't us. I can cherry pick numbers and get more winners than I did from this book.

I enjoy following my dreams because some of the most important events of my life have been foreshadowed in my dreams. This book offers lots of tips and strategies for better understanding your dreams. I enjoyed reading it.

I can see how numbers pop up and we play them, and i love the idea that now thru "symbolism" we can apply to numbers, BUT, i don't understand how Raven came to the total on the numbers. One method i can see .. as it is a basic method, but even that, one needs to keep adding and reducing numbers till we have a single number. So, even tho using Intuition to select numbers, it seems that we would be able to do this WITHOUT a book. I would use this as a reference book, especially if something is profoundly showing up, but other than that, i think that it will work better with a person who has a good record of a strong intuition.. So mabey start with cleaning up the static so one can "clearly receive" their guidance and reap the rewards

If you like the attraction of the cover page, go for it. But, this is not the perfect dream book to rely on. You can always try it based on your budget, but I am not recommending it if you need something to rely on for a living.
