# Baccarat - A Complete Baccarat System- Using C.O.N.T.R.O.L.

## Synopsis

This book will give you, the gambler, a complete system and methodology for betting Baccarat. This book will cover how to play on the three bets in Baccarat. This system works for regular, mini and online Baccarat tables. Baccarat is by far the most over-rated and least understood game in the casino. As a player, you make ZERO decisions during game play. Your only decision comes before the game starts. Betting in the casino does not get any simpler than this! The payoffs for bank and player bets are 1 to 1, meaning if you bet \$5 and win, you are paid a \$5 chip. To bet on a tie the payoff is 8 to 1. It truly is that simple! Now before you run off and drain your piggy bank on your quest to "take-down" the casinos, you need to have a plan of attack. That is where my C.O.N.T.R.O.L. methodology enters into the equation.

## Customer Reviews

I thought I would give this book a negative review. However, when I first read it, I was disappointed because I expected something different. But on further reflection, this book strips out all of the fluff and imparts the kind of wisdom that only experience can teach when playing the game. Baccarat is the only casino game I play and if I only had ten minutes to explain the most important lessons you can learn when playing the game, this book would just about cover it.

This is so short that it's really more of an article. The author offers a modest money management system for small dollar bettors which is conservative and safe, but his betting system (partial 3-step Martingale) is too volatile and will eat up those small dollar bankrolls pretty quickly. There are so many better books out there that there's really nothing to recommend this one...

This product left a great deal to be desired. . I realize it wasn't very expensive, however, the information could have been found on the internet by doing a Google search. I bought the book looking for information on online baccarat ideas, however, the author states that information is in another publication.

It is not even a chapter and they call it a book. Really you got to be kidding me! This pamphlet totals 27 pages. They have the nerve to tell you to only take a ten minute break when you win or loose. For me that's not long enough of a break win or loose. They use martingale 3 bets system and its utter insanity! I think martingale should sue them for using his strategy and then copyrighting it as there own! Just my oppinion. Did this guy Johnny Depot ever even play a shoe of baccarat? I wonder? Then when he talks about vig percentages on player being 1.34 when player we all know has no commission and banker being 1.17 without citation on how the vig was calculated and claim to be a system to keep you at best 50/50 odds chance you got to be kidding me. No matter what banker bets are never 1:1 and thus 50/50 odds can never be achieved in baccarat if you bet banker for an infinite population of people. I am not the brightest cray in the crayola box but I am not the dullest either! Heck he doesn't even tell you what a vig is for Christ sakes!

This "book" should have been called a Brochure instead, NOT a "book". The text is only on 11 (eleven) pages, but due to a very large letters and spacing it could have fit easily on 9 (nine), maybe even 8 (eight) pages. The content is very naive and is very inaccurate. Has many important omissions (e.g.: in Chapter "kNowledge" the description of Baccarat Rules is very incomplete), you would not be able learn the rules of the game from it. I am sorry I did not read any reviews before the purchase!!! They are correct. In my opinion - do not waste your time on this brochure...

Worthless, do not buy, 25 pages of comically stupid data. Have 100x your bet, play 5 sessions and quit at a 10% loss per session. I feel like I got cheated.
