Found Aliens: The Word Of Dog (The Galactic Pool Satires Book 3)

Synopsis

Limited time sale price! The Galactic Pool's greatest evil genius (or so he thinks) has arrived in person to dominate Earth. The local Higher Power fails to recognize the threat in time, so He's forced to recruit some familiar aliens to help keep Creation from getting all screwed up. As part of the deal, Jimmy Fresneaux obtains permission to abduct hundreds of Earthling bass fishermen to exterminate a pan-galactic largemouth bass plague. And Trukk-9, the Galactic Pool's greatest filmmaker (or so he thinks), rides along to finish a destined-to-become-historic film about his favorite Rogue Dnooblian.*There's only one sex scene, but it's a doozy. Too bad we get kicked out of the room.

Customer Reviews

Kelly strikes again with another great offering in the Galactic Pool franchise! I took the opportunity to pre-order this ebook a couple of months ago and then promptly put my Kindle aside and waited impatiently. It was worth the wait, hence the 5 stars. This author has long ago, in my estimation at least, pushed himself above the pack of emerging authors by pursuing a brand that is all his own. It is truly remarkable that this is the third installment and the gags keep on coming. It is funny, it is

intelligent, it is innovative. The characters we have come to know and love and/or just know are back and continuing their respective quests for publication, domination, film making and revenge. Too many times by this stage of a series the author will spend the majority of the time recapping the events of the previous books to the extent that the actual new data is limited to a couple of sentences at the end. Kelly does not do this, so you will get the new, pure, good stuff and if you are like me you will want to go back and read them all again. It is notable and extraordinary that there is still a willingness to try new things, to keep all of the strands going, to at times be confusing and just keep going. This is a genuinely rare approach and even considering the list of referenced authors that inspired Kelly the Galactic Pool is cutting edge. I await with eagerness the production of the main characters as little figures that shall surely go alongside the film adaptation.

Well book ok hate the fact I have to submit a dialog and not just indicate by stars. So no more reviews.

Loved the series , would like to see more of these kind of stories. Once I got into it I couldn't put it down.

I loved the whole series.

Of the 3 it was the worst it wasn't funny it was stupid, it brought SciFi to a new low
