Webworks: E-zines: Exploring Online Magazines

Synopsis

Meet the people who make it their business to create electronic magazines on the web. Here you'll find an international showcase of e-zine designs that work. Whether translated from print or created purely for online viewing, these e-zines offer standout solutions to the enormous challenge of designing information and holding the reader's attention online. From mass-media stalwarts, such as Time and Fortune, to renegade upstarts like Suck and Urban 75, *WebWorks: e-Zines* identifies what makes an e-zine success. Learn about e-zine structure and design, from start-up and promotion theory to the nuts-and-bolts layout of departments and columns. Discover innovative techniques for enticing readers participation and generating subscriptions. Find common sense tips on navigation, programs, and site architecture. Packed with advice and inspiration from top e-zine staff, this volume is the essential resource for designers, marketers, and internet enthusiasts around the world. Each case study introduces you to the designers who are inventing the future, giving you a direct pipeline into today's web world.

Customer Reviews

After you read the title, you expect exactly what the book delivers: excellent visual stimulation and the best magazine websites briefly analysed. Salon, Feed, Rolling Stone and all the best are there, both Internet-only mags and the printed ones with a cool version on the Web. Essential. It's impossible, even for the best and most experienced webdesign professional, do not like it. It's not

the "complete guide" or something, but the 40/50 websites there are really THE ONES. A little over-priced, true, but you can consider yourself a lucky guy if you don't have the chance to put your hands on it: this book is one of those that once touched, it is immediately bought.

In all honesty I bought this book mainly because, much to my surprise, I found that my work is actually included...for Ms. Gill to stumble across my site, she really must've scoured the web. And you can see that from the rich variety of other examples included. Brava!! just wish she sent me a copy for free! ;)
