Synopsis

Hacks every college student needs to know! Want to ace your next exam? Claim victory as a beer pong champ? Remove that gross stain from your shirt before your interview? College Hacks gives you the tricks and tips you need to get ahead in life without breaking a sweat. Filled with hundreds of ways to simplify nearly every college situation, this guide tells you just what to do when your professor assigns you a twenty-page paper or you run out of clean dishes in your dorm room (chip bag bowl, anyone?). So stop making college harder than it should be! With these everyday hacks, you'll breeze through each semester as you finish assignments and tasks quicker than ever before!

Customer Reviews

Love all the great hacks. I've discovered so many things that have been useful to me. Things I never would have thought of, and they have saved me space, time and money. Very useful for the college student who is short on funds.

i got this as a high school graduation gift for a friends niece....i read through the book and found it to be very informative, easy to understand.... the young woman i gave the book to has stated how it has been helpful to her, and that there were hacks in there that she had never thought of....would recommend for any high school grad or college student.

Received in good condition. Worth getting for the great tips. Our son has used a number of them

already. Has saved him some money using these valuable tips. Great College gift. I plan on buying more as gifts.

I bought this for my son who is starting college. I am a college instructor, and learned a lot! Ahem--alcohol and partying section does not need to be so long. :-)

This book should be called how to waste \$60,000 of your parents' money each year for 4 years. It's all advice on drinking, beer pong, how to use your cell phone in class and sex tips. Not a single useful academic tip except how to use Wikipedia for your term papers. A guidebook for the dumb masses. Really disappointing- not recommended except as humor.

It was a good book, but I expected a more detailed kind of thing rather than listed format. Still a good read with nice tips and hacks. Just not my preferred style of writing.

This book produces really good tips!!

Good one. It is making the rounds in our family. A surprising find.
