Hell In Flanders Fields: Canadians At The Second Battle Of Ypres

Synopsis

On 22 April 1915, the men of the 1st Canadian Division faced chlorine gas, a new lethal weapon against which they had no defence. In defiance of a particularly horrible death, or, at the very least, severe lung injury, these untested Canadians fought almost continuously for four days, often hand-to-hand, as they clung stubbornly against overwhelming odds to a vital part of the Allied line after the French units on their left fled in panic. By doing so, they saved 50,000 troops in the Ypres salient from almost certain destruction, and, in addition, prevented the momentum of the war from tipping in favour of the Germans. In this new, deeply researched account, the distinguished military historian George H. Cassar skillfully blends into the history of the battle the graphic and moving words of the men on the front line. Illustrated with outstanding photographs and numerous maps, and drawing from diaries, letters, and documents from every level of planning, *Hell in Flanders Fields* is an authoritative, gripping drama of politics, strategy, and human courage.

Customer Reviews

Excellent writing of the Canadian soldiers in the Second Battle of Ypres. I am a student and writing articles on the Canadians who fought a great battle and survived the gas that killed or permanently

injured so many soldiers.
