Contracts: Examples & Explanations, 5th Edition

Synopsis

A favorite among successful students, and often recommended by professors, the unique Examples & Explanations series gives you extremely clear introductions to concepts followed by realistic examples that mirror those presented in the classroom throughout the semester. Use at the beginning and midway through the semester to deepen your understanding through clear explanations, corresponding hypothetical fact patterns, and analysis. Then use to study for finals by reviewing the hypotheticals as well as the structure and reasoning behind the accompanying analysis. Designed to complement your casebook, the trusted Examples & Explanations titles get right to the point in a conversational, often humorous style that helps you learn the material each step of the way and prepare for the exam at the end of the course. The unique, time-tested Examples & Explanations series is invaluable to teach yourself the subject from the first day of class until your last review before the final. Each guide helps you learn new material by working through chapters that explain each topic in simple language challenges your understanding with hypotheticals similar to those presented in class provides valuable opportunity to study for the final by reviewing the hypotheticals as well as the structure and reasoning behind the corresponding analysis quickly gets to the point in conversational style laced with humor remains a favorite among law school students is often recommended by professors who encourage the use of study guides works with ALL the major casebooks, suits any class on a given topic provides an alternative perspective to help you understand your casebook and in-class lectures

Customer Reviews

Well, I just finished my first year. Exams finished the day before this writing. I came to to thank this book and write a favorable review to help first years that will follow.[Edit - Grades were just released. I got an A in Contracts. This book was a big help]For Contracts, this book is a must. Any first year law student needs this book. Here's why.If you're a law student, you'll probably be reading this review at one of two moments in your law school career. Either you'll be reading this a few weeks before your first class, or, you'll be reading this a few weeks before exams. What you need to know is that you should get this book regardless of when you're reading this.Generally, law school is about spotting issues in fact patterns and writing essays from those facts. Contracts, more than any other first year subject, is about understanding simple issues but being able to explain complexities. To succeed, it takes a mastery of subtlety.This book is a key. First, it is really a hornbook. It is a summary of the law of contracts. But unlike other books and study aides on the subject, it is not an outline. Instead, each subject is covered in depth - with detailed exposition of general rules and their exceptions written in the way you'll need to write on the exam. Reading this book - and doing nothing else - will improve your grade because you'll get a feel for a winning writing style.Second, and more importantly, each chapter ends with several detailed fact patterns AND wonderfully complex analysis by Professor Blum. I found from my experience that not only were these helpful to study and prepare, but that my contracts professor was a fan of Bloom and his writing style.
